Transferable Skills

- Customer Service (5 Years)
- Fast Learner
- Team Player
- Very Practical
- Communication
- Target Achieving
- Multitasking Skills
- Dedicated Employee
- Full Clean Driving License (4 Years)

Recent Work Experience

Software Developer (Apprentice)

Bspoke Software

Peterborough

(06/23 – 10/23)

Working at Bspoke Software I started out with a solo project to get a hang of things. This is my first introduction to the worlds of development.

This was where I got introduced to working with SQL, ASP.NET and VueJS. Since Vue is where I mostly worked with in comparison, this is the skill that I have mainly taken in. Most of the projects I worked on involved Vue. I also learnt to add plugins to my projects like Tailwind, Full Calendar, and Carousel Sides.

Besides from Vue I was involved in a project that the company had called WinGen. This was an application for companies to access data. My task was to convert old query logic everything to the API.

Recent Education

Student (Game Course)

Game Academy

Remote

(12/23 – Currently)

This is a course that I have taken on to fill in my free time to learn newer ways and to widen my skills.

On this course I am learning Marketing, Game Development, Testing, and many other skills needed for the gaming industry.

Student (Software Development)

QA Skill Bootcamp

Remote

(12/23 – Currently)

During this course I found my enjoyment for IT work. I have learnt many of my new skills for coding using the languages Python, HTML, CSS and Java.

This course was remotely based, allowing me to learn Microsoft Teams and WebEx. It also taught me with learning in my own environment at home on projects as I was mostly used to working at the company's places.

Previous Work Experience

Customer Assistant Lidl – Bourne (11/22 – 06/23)

- Regularly met deadlines by ensuring healthy communication within our team.
- Increased speed of transaction by 5% - helping to achieve a new yearly profit.
- Reduced waste by utilising inventory and stock management.
- Utilised effective communication and situational judgement to reduce customer complaints.
- Recently an idea of mine is currently being implemented to help benefit more Lidl Plus app users.

Vinyl Wrap MKS Customs – Crowland (04/22 – 08/22)

Painter Excel Auto Body Repair – Yaxley (10/21 – 04/22)

MET Avid Auto – Yaxley (05/21 – 08/21)

Sales Assistant (Temporary) Card Factory – Stamford (12/20 – 01/21)

Parking Enforcement Officer Westside Health & Fitness – Stamford (09/18 – 12/18)

Glass Collector Willoughby's – Stamford (10/17 – 07/18)

Education Work Experience

Programmer – Trimble Luckins, Stamford (01/17 – 02/17)

Web Programmer – Auntie Ang, Stamford.

Grades

- English - Pass
 - Maths - Pass
 - Music Performance Lvl 3 - Merit
 - Performing Arts Lvl 2 - Merit
 - IT Lvl 2 – Pass
-

Other Information

In my personal life I enjoy playing music. Learning new songs, techniques and facing a challenge like learning an hour long set in a few weeks for an up-and-coming performance. Besides from music, I also like to work with computers in my free time from stuff as simple as giving family and friends that tech support, building up custom built computers or even just dabbling with software. I always like to keep myself active as much as possible.
